

TOAST-QWIK® ELECTRIC CONVEYOR TOASTERS

Models TQ-400, -400BA, -400H, -800, -800BA, -800H, -800HBA, -1200, -10

The Hatco Toast-Qwik is an economical conveyor toaster with fast, dependable and versatile toasting, offering 350 to 1200 slices per hour. Hatco toasters utilize conveyor speed, not temperature to determine toasting color. This method allows for *instant* adjustment of toasting time to match the bread product being toasted.

FLEXIBILITY

For uniformly colored golden-brown toast, as well as bagels, buns, and English muffins, Toast-Qwik Conveyor Toasters provide the optimum in features, quality and value. The electronic controls precisely regulate both top and bottom heating elements for perfect toasting every time. The exclusive, patented Colorguard sensing system monitors cabinet temperature and adjusts conveyor speed during high usage periods to assure uniform toast. The power save mode with indicator light saves energy and money during slow periods.

Hatco versatility offers standard and bagel models, as well as versions with a taller opening for thicker products and a high-speed model. The efficient design of front or rear discharge allows Toast-Qwik to be placed where it is most convenient – for sending product to operator side or customer/server.

Hatco Toast-Qwik toasters feature permanently lubricated ball bearing motor and heating elements guaranteed against burnout and breakage for two years.

QUALITY

The following features assure the finest performance for years to come:

- Colorguard sensing system assures toast uniformity for TQ-400, -800, and -1200 series.
- Electronic infinite controls regulate top and bottom heat.
- Easy-to-load rack with front or rear discharge.
- Power save mode conserves energy and saves money.
- Models with 2" or 3" (51 or 76 mm) high openings for all types of bread products.
- Aluminum toast collector tray for TQ-400, -800, and -1200 series prevents condensation.
- Insulation and an interior fan provide cool surface temperatures.

Model TQ-400

Model TQ-800H

Model TQ-800HBA

Model TQ-10

For lower volume applications, the Toast-Qwik TQ-10 model is an economical conveyor toaster with the capacity of up to 300 slices per hour. Features include independent controls for upper and lower elements allowing single- or double-side toasting, conveyor speed to determine the toast color, and an easy-to-load rack with front or rear discharge. Durable painted steel top and aluminized steel construction assures years of trouble-free service.
